The disabled steamship *Sarnia* has reached Halifax.

Jules Ferry, president of the French senate, is dead.

Twenty-one lives were lost in a fire at St. Sebastian, Spain.

Lord Mount Stephen is in trouble through interfering in an election.

The Manitoba government has refused aid to the proposed new line to Lake Superior.

A big row is brewing between Tupper and the Dominion government over the refusal of the latter to ratify the French treaty.

McCarthy's free trade motion was defeated in the commons by 116 to 54. O'Brien and Hodgins, conservatives, voted with McCarthy.

Premier Maitland is here. He says the immigration policy of the Northwest government is working well. He also stated that outside of departmental details the principal concession granted the Territories was that "Within the limits of Territorial legislative jurisdiction members of the assembly cabinet will now be recognized as advisers of the lieutenant governor. Formerly, although it was generally understood that such were the duties of these gentlemen, his honor had power not to recognize his cabinet in any way, as occupying such a position. The government promised to see such changes in the act as would carry out the wishes of the people."

LOCAL.

Train left Calgary on time to-day.

The Red Deer land office was opened on the 17th, J. G. Jessup in charge.

The H. B. Co. are removing to their new building, Jasper avenue west, to-day.

LARIVIERE's dog trains arrived from Slave lake last week for a fresh supply of goods.

BEAVER lake school district on the east side of Beaver lake has completed a new school house.

G. W. HASLOR, manager of the H. B. C. store Edmonton, is in Winnipeg selecting a stock of spring goods.

P. McDERMOTT, is about to erect a dwelling on Namayo avenue, 20x26, with wing 14x14, story and half high.

THREE trains arrived from the east in Calgary on Friday night, last. Two of them had been delayed by bad weather.

A CAR of lime from Kananaskis, arrived on Monday's train for J. J. Duggan, of the British Columbia lumber yard, South Edmonton.

TUESDAY's train of last week was delayed by snow south of Red Deer so that it did not reach Calgary until 2 o'clock on Wednesday morning. No snow fell at Edmonton.

THE Edmonton agricultural society has ordered 500 bushels of red life seed wheat from the C. P. R. to fill orders received from farmers who desire change or improve their seed. Orders are still being received.

A GAME of football between teams of school boys from the Edmonton and South Edmonton schools respectively was played on Saturday afternoon in Edmonton, with the result of two games for Edmonton and one for South Edmonton.

A SCHOOL district is being organized at Egg lake, south of Victoria. There are 25 children of school age within the limits of the proposed district. Arrangements are being made to erect a school house as soon as the snow is off the ground.

F. K. GIBSON, of Victoria, who was arrested on a charge of embezzlement made by Lafferty & Moore and was taken to Calgary on Tuesday's train of last week, returned on Thursday's train, having settled the matter satisfactorily on his arrival in Calgary.

D. R. FRASER, of Fraser & Co. left for Toronto on Friday's train to arrange for the building of a small steamer to run on the Saskatchewan between the firm's timber limit and the mill in Edmonton. It will tow logs down and carry men and supplies up.

MR. HAY inspector of Imperial bank agencies arrived on Monday's train of last week, making a tour of the bank's branches in Manitoba and the Northwest. He is well pleased with the growth of business shown by the Edmonton branch. He leaves for the south to-morrow.

JOHN ROSS, Indian agent at Saddle lake is in town, to procure seed grain for use on the Saddle lake reserves in spring. The steam grist mill on the White fish lake reserve, which was completed recently by J. G. Oliver, commenced grinding on March 1st and has already made 200 sacks of flour.

The Calgary Tribune of March 9th, contains an account of the marriage in Calgary on the 8th of Mr. Will T. Henry to Miss Clara Ada Battick. After the marriage ceremony Mr. and Mrs. Henry were presented with an address of congratulation by the Young people's society of Christian Endeavor of the Methodist church to which both belong, they being about to leave Calgary for Edmonton.

THURSDAY's train brought a light mail and no Winnipeg papers, as the trains of Tuesday and Wednesday on the main line had failed to get through to Calgary owing to storms somewhere between Calgary and Winnipeg. It is hard to realize that there can be such weather in the Territories while that at Edmonton is so fine. Clear, clam weather, roads in the very best condition and building operations going on briskly.

FRERMAN TALBOT, who made a tour of the Northwest last summer in the interests of immigration and visited the Edmonton district, is now residing at Qu'Appelle, Assiniboia, and has a long communication in the Qu'Appelle Progress making favorable comparisons between the Northwest as a field for settlement as against Dakota; but thinks Northwest papers do not lie hard enough in cranking up their own country, and gives them a few specimens of how this is done in the States.

JOHN T. RING, of South Edmonton, has been appointed immigration agent to the Eastern Townships of Quebec and the New England States by the C. P. R. and the Canadian government. He leaves by to-morrow's train. Ever since his arrival in Edmonton from Parry Sound last spring Mr. Ring has been most energetic and successful in promoting settlement in the Edmonton district, chiefly in the neighborhood of Leduc station, and will no doubt be as successful in his present and larger undertaking.

A SPECIAL train arrived from Calgary on Saturday afternoon last about four o'clock, with a car of settlers and five car loads of effects from Green Valley, Glengarry, Ontario. The names are Hugh McMillan and family, John McDonald and family, J. R. Donovan and family, A. McDougall and family and — McLeod and family. The effects include about 50 head of cattle, some of which are Holsteins. The settlers are for St. Albert, where several of them have already secured farms, having been here last fall. The same train brought two cars of lumber for Wetaskiwin.

THE Allyn & Kelly concert of Thursday night had a smaller attendance than that of Wednesday and Wednesday did not equal Tuesday. This was not altogether due to the town being run out of funds. The trouble was that Allyn was no good and that Kelly was not up to specifications. In mentioning in last issue that Messrs. Allyn & Kelly were first class in their respective lines the BULLETIN neglected to state the exact lines in which these gentlemen were first class. Mr. Allyn's specialty appears to be the wearing of a plug hat and long coat when off the stage. His specialty on the stage has been carefully concealed from the Edmonton public. Mr. Kelly is an excellent guitar player and also handles the mandolin very well. He has a deep bass voice, very suitable for choir singing but not effective in tenor solos.

THERE are four flouring or gristing mills in the Edmonton district within an area of 18 miles square. The Edmonton Milling Co.'s steam roller mill, with capacity of 75 barrels of flour a day, in South Edmonton. Fraser & Co.'s steam grist mill in Edmonton with two run of stones. Hutton & Bull's steam grist mill, St. Albert, with two run of stones, and The Sturgeon River Milling Co.'s water mill on Sturgeon river, with one run of stones. All these mills are running full time on last season's crop of wheat. There is no other settlement in Manitoba or the Northwest of no greater population that has as many mills within the same area. This should be a sufficient answer to the question so often asked: "Does wheat do as well in the Edmonton district as in more southerly parts of the country?" If it did not there would not be so much more money invested in mills to grind the wheat than in other settlements.

NORTHWEST SCHOOLS.

The news that the Northwest government has engaged Prof. D. G. Goggin of Winnipeg at a salary of \$3,000 a year and expenses to take general supervision of educational work, and at the same time act as director of normal schools and teachers' institutes in the Territories, has been received with general satisfaction by the press of the Northwest. The appointment is in the line of good educational policy. It is altogether advisable that there should be a practical educationalist of high standing to act practically as deputy minister of education in the Territories. As to whether or not the best possible appointment was made, or whether or not the services required are equal to the very high salary paid, the BULLETIN will reserve its opinion and give the government and their appointee an opportunity to demonstrate the wisdom of the choice and the necessity of the salary. It has no hesitation however in expressing an opinion that there is something which the educational system of the Territories requires at the present time very much more than a high salaried director of teachers' institutes and normal schools—supposing these to be Prof. Goggin's principal duties, as some of the papers seem to hint. The educational system of these Territories, it may be well to remark, is not devised and supported primarily for the special behoof of school teachers, present or prospective. It is for the purpose of imparting a useful education to as many of the youth of this Northwest as circumstances will permit. The teachers of the Territories are a means to the end desired and not the end itself. The first care of the government should be to see that the schools where reading, writing and arithmetic are taught are as numerous as possible and as well conducted as possible, and when that has been fully attended to, provide for normal schools and teachers' institutes; and in the meantime draw their supply of teachers from where education is cheaper and better than it can possibly be here as yet. The government can only ensure an efficient education in these schools—can only know what work is being done in them—by means of an efficient inspectorate. In fact the efficiency, not to say usefulness, of the present system hinges on the efficiency of the inspection. It is a notorious fact that the inspection of the schools of this part of the Territories at least is not up to the mark. The following resolution recently passed by the board of school trustees in Calgary shows that a similar state of affairs exists there: "That this board deploras the fact that there has been no official inspection of the Calgary public school for twelve months, and begs leave to express to the council of public instruction its firm conviction that justice to this school demands that it should be inspected not less than twice a year." When a school is important as that of Calgary is not inspected for twelve months at a stretch it appears to be about time either that the present inspectors should impart more energy to their movements or that more inspectors should be appointed. It is simply a notorious fact that there are a thousand and one matters connected with the working of the schools in all sections of the country which require the attention of a competent authority on the ground, to arrange them so that the schools will run smoothly and that value will be received for the money paid. The inspectors are paid to attend to these matters and are clothed with the necessary authority, and yet they are not attended to. They are left to arrange themselves, with the inevitable result of local quarrels and general dissatisfaction. It may be that with a practical man at the head of educational affairs things will be better arranged, and if Prof. Goggin gives his attention to this branch of his duties and succeeds in unravelling and keeping straight the tangles continually arising in the common schools throughout the country, through the medium of the present or other inspectors, he will well earn even the high salary that he is being paid. But if he devotes his time to normal schools and teachers' institutes and allows the ordinary schools to run on in the hap hazard fashion that has been so common in the past, his appointment will have been a mistake and his salary a dead loss. For the present let us educate the children, let the teachers educate themselves. We can import teachers better and more cheaply than we can educate them, and the best is none too good for us.

A Toronto despatch of March 13th says: "Agents from Dakota and Minnesota have been working in Waterloo County this spring, urging the farmers of that community to emigrate to those States. Mayor Lucas, of Calgary, and W. R. Calloway, took a run up to Berlin yesterday to a gathering of farmers, with a view of convincing intending emigrants that there is no

place better than the Northwest." This occurrence shows clearly the necessity of the Northwest and Manitoba looking closely after immigration from the Eastern provinces. With or without reason, it has been and is the policy of the Dominion government not to give any direct encouragement to the movement of people from the older to the newer provinces. These provinces have been an open field for United States immigration agents for the past twenty years, without any direct counteracting influence until Manitoba first, and now the Northwest, took the matter up. It is to be hoped that the Northwest government will not slacken its hand in this matter, but will established permanently active immigration agencies not only in Manitoba but also in the more Eastern provinces. This is the only means whereby we can keep our own population, and our own people are worth more to us than any others.

A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

Strang-Gallagher-moved that the collector be instructed to insist on payment of all collectable taxes now due.

McLeod moved that the health and relief committee be authorized to visit St. Albert hospital and make such arrangements they think best with regard to reception and treatment of patients sent to the hospital by the town.

By-law 44 was read a second and third time and passed, and by-law 45 was read a third time and referred to the solicitors for alteration. By-law 46 was read a second time.

Strang-Gallagher-moved that the council request Councilor McLeod to get all the information possible from the fire department of any city or town he may visit on his trip east.

CORRESPONDENCE.

BEAVER HILLS, March 10th, 1893.

TO THE EDITOR OF THE HERALD.

SIR: Will you allow me through your columns to submit for general discussion the following measures which I claim would be useful and cost very little.

1. Central points of sections—if the above were fixed it would encourage fencing and breaking and save disputes about timber. In the rolling and wooded country of North Alberta it is not easy to run lines. I therefore suggest legislation by which any resident bona fide farmer who gets the centre points fixed by a D.L.S., may recover from neighbors a share of the cost pro rata.

2. Northwest mounted police—There are I hear about 10 officers and men in this locality; many of them are doubtless possessed of abilities and energies largely due to proportion to their present police work, in these trying times of peace. I know three colonial police officers who rose to the position of governors of British Columbia because they had scope to show their talents. I will only note two or three out of many ways by which, in a colony where I reside, openings are given to the members of a similar force to show to the world their administrative, executive and organizing capacities (wherever on any travelled tracks there is anything likely to injure life or limb of man or beast—be it a rotten bridge, a broken bottle or a bad crossing of the river it should be the duty of the police, promptly to take steps to prevent mischief—in the first case by either making up some public works officer; or calling on the nearest settler (outside preferential) to repair, for fair payment, or if very pressing the police should make quite rapid (the Royal Engineers do similar work) or stop the road.

(b) In the case of bottles emptied and then filled up by thrown on or near any track by water the latter should be traced, run in and get three months hard labor.

(c) I noticed in the fall of 1891 and again in the spring and fall of 1892 that there was only one man (Mr. J. Walter) who ever took any care to caution strangers at the time when the trail crossing of the river was unsafe between the railway station and the north town—at all hours Mr. Walter would leave his work or home to a duty which most certainly should not be neglected by the police, especially as the train generally arrives after 7 p.m.

(d) In the colony I referred to above, valuable service is got by referring "petitions" and rival petitions to the police to make a return as to the existence and status of each signor. If for instance the police report should give the details of each signor last year's crop; amount of land prepared for the next or the current year; number of horses and cattle visible on his premises—and for the very private information of government a private mark against names "known to the police"; for any offences against the good old vagrant act known here as "against good morals."

(e) When the first of last year's series of fires took place in Edmonton I suggested to Mr. J. M. D., who endured the loss, to urge the authorities to order coroner's inquests conducted by the police on any buildings burnt, at the cost of the crown. 50 police equal per annum say at the cost of the crown. I have for the present only noted the equivalent of work for 800 days; or say 3 smart men.

3. Mail service—For all the numerous residents in Beaver Hills, Walker settlement, Fort Saskatchewan, Beaver lake and the closely settled trails leading there from the railway station, along the south side of the river all our mails are always more or less delayed and extra risks incurred by the present curious process. All our inward mail from south, west, and west come by train one day and are brought back the next—for our replies the operation is reversed, taken to the north side on Mondays and Fridays—of course the time wasted is considerable even when the river is at its best. Nearly every genuine farmer who could be got at memorialized, the government for a direct service, which would have been granted but our petition was opposed.

CURLING.

The last of the games with the Calgary visitors were played on Thursday afternoon and evening and resulted as follows:

AFTERNOON.

EDMONTON. CALGARY.
W. McKay, Jas. Thomson,
M. McCauley, Geo. K. Leeson,
Jas. McDonald, Jas. Scott,
Rev. D.G. McQueen—4, Jos. Bannerman—20

EVENING.

EDMONTON. CALGARY.
R. Vance, Jas. Thomson,
J. Thurston, W. M. H. Lee,
Jas. Goodridge, J. C. Dowsett,
E. Looby—6, Geo. K. Leeson—9

On Thursday evening at half past ten the Calgary men were entertained at supper at the Jasper House, by the Edmonton club. Jas. Goodridge occupied the chair and Jas. McDonald the vice chair. The attendance was not as large as it should have been, but a pleasant evening was spent, amid expressions of mutual good will. The visitors returned to Calgary on Friday's train, well pleased with their trip. The total count showed that Calgary won four games and Edmonton three. Total points, Edmonton 65, Calgary 91.

GENERAL NEWS.

A fresh case of small pox has been discovered at Vancouver, B.C.

J. H. Sutherland saw mill owner of Winnipeg, has removed to Calgary.

Hull Bros. of Calgary have shipped two car loads of Alberta cattle to Nanaimo, B. C., this month.

The town of Calgary has been stuck for \$216 and costs in a suit brought for damages by a person who was injured through a defective sidewalk.

The motion of Mulock, M. P., "That it is expedient to place binding time on the free list," was defeated in parliament by 91 to 51. Mr. Davin did not vote.

Boisclair Globe: "A number of horses in this section are ailing from a complaint which appears to baffle the wisdom of the veterinary, and many have died. The trouble is said to be inflammation, which some claim is produced from exposure, while others say the trouble is brought about by overfeeding with wheat or musty oats. Whatever the cause the fatalities are numerous."

Several well developed cases of tuberculosis have been discovered in a herd of cattle in the vicinity of Toronto. The discovery of the disease, coming as it does upon those opposed to entry into England of Canadian cattle on hoof, and who are urging that tuberculosis be made the cause for scheduling cattle, has created considerable excitement, who were hoping for the removal of the embargo on Canadian cattle.

The following is the resolution offered by Tarte, M. P., on the Manitoba school question: "That this house desires to express its disapproval of the action of the government in dealing with the Manitoba school question, and in assuming to be possessed of judicial functions conflicting with their duty as constitutional advisers of the crown while the assumption is wholly unknown to law, and if acquiesced to would be entirely subversive of the principle of ministerial responsibility."
